TECHNOLOGY AND EQUIPMENT

Technology purchase and licensing

Explore the equipment, rights and technical support needed to bring BlinkTech into your operation.

Rights and territory | **Equipment** | **Training**

For manufacturers, technology operators and strategic investors

Define the rights

Identify the product, field of use and territory. SunTech coordinates discussions with the relevant rights holders on purchase, licensing or transfer.

Map the production process

Review ingredient preparation, filling, freezing, drying and protective packaging. Agree which equipment, training and documents the project needs.

Agree on handover criteria

Identify the receiving site, technical team, acceptance tests and responsibilities before negotiating milestones and commercial terms.
